Dear Sirs/Madams

I much appreciate your sending me a new revision of the complaints affidavit form as an email attachment, however I am disappointed to inform you that this still contains the rogue scripts that reflect data entered to other unrelated fields, and deletes data from previously entered fields. I have attached this, still unfit for purpose version, as just received from your department.

Please send by return a pdf document as an attachment, that is fit for purpose, as this is the hinge pin for creating a complaint. I am beginning to conclude that creating a document that is impossible to use, is either crass incompetence of the part of the document author, or a deliberate act of evasion of responsibility by your department.

All that is required is a form that leaves entered data as is, without any background scripts, in order I can file this complaint!

I will send an SMTP 250 proof of delivery of this email in due course.

Regards
