Dear Honorable Commissioners,

I am formally addressing the Commission *En Banc* regarding newly docketed **Case No. CID-CDO-2026-001**.

While I highly appreciate the efficiency and professionalism of the Complaints and Investigation Division (CID) in docketing this matter today, I am gravely concerned by their indication that an administrative "Fact-Finding Report" must precede the elevation of this file to the *En Banc*. As a Software Managing Director in my 80th year with 50 years of infrastructure expertise, I must alert the Commission to a critical **Technical Impossibility**:

1. **The Deletion Threshold:** Meta AI's automated deletion clock will permanently and irrevocably purge all account data and automated decision-making (ADM) logs on or about **June 7, 2026**.
2. **Irreparable Destruction:** If this Emergency Application is held back for a routine "Fact-Finding Report," the subject matter of this case will cease to exist before the report is even finished, rendering any subsequent regulatory action completely moot.
3. **Perfection of Filing:** I have already paid all required CDO fees and posted the **PHP 1,500.00 CDO Bond**, which the Commission has accepted.

PRAYER FOR IMMEDIATE INTERIM RELIEF:

Pursuant to the Commission's powers to grant provisional remedies, I respectfully pray that the *En Banc* bypass the standard reporting delays and issue an **Immediate Interim Order to Preserve Evidence** to Meta Platforms International Operations Philippines Inc. The Landlord (Menarco Development Corp) has already formally verified the Respondent's tenancy on the 32nd Floor, removing any barrier to the immediate electronic or physical service of an emergency preservation mandate.

Sincerely,

Geoffrey Arthur Stow

Complainant / Infrastructure Administrator
