Dear Menarco Management,

Further to our previous correspondence and your written confirmation regarding Meta's tenancy on your 32nd floor, please be advised that a dedicated international monitoring platform has been formally deployed to track this dispute.

The site is now live at: www.case001.org

For total corporate transparency and to maintain a secure public record ahead of Meta AI's June 7th deletion threshold, we have published the complete, sanitized case file. This includes:

1. **The Official Docket:** Our recognition by the state data regulator as the premier emergency preservation order of the year (**Case No. CID-CDO-2026-001**).
2. **The Landlord Audit (Annex I):** The microsecond J&T Express traffic logs documenting that your own corporate headquarters physically and telephonically evaded **twelve (12) distinct delivery attempts** across a four-day window, despite your digital invitations for communication.

We highly respect your position as a commercial lessor. However, your infrastructure's ongoing blockade against standard legal couriers is now a matter of public and regulatory record. The live countdown timer on the site will monitor whether human due process is restored, or if the "Peter Pan Corporation" successfully destroys active evidence within your building.

Sincerely,

Geoff Stow
