

**URGENT: MOTION FOR IMMEDIATE CEASE AND DESIST ORDER – IMMINENT RISK OF IRREPARABLE DATA LOSS (STOW VS. META) [🔒](#)**

To [Complaints NPC](#) on 2026-05-07 08:02

[Details](#) [Plain text](#)

Dear Sirs/Madams,

I am following up on my formal Complaint-Affidavit successfully delivered to your gateway on **May 05, 2026 (Verified by SMTP2GO Log: 250 2.6.0 Handshake)**.

As the Founder and Managing Director of Redberry Software (UK) Ltd, with 50 years of technical expertise, I am formally moving for an **IMMEDIATE INTERIM CEASE AND DESIST ORDER** against Meta Platforms International Operations Philippines Inc. based on the following **Emergency Circumstances**:

1. **Imminent Destruction of Evidence:** Based on Meta's standard 180-day data retention policy, the data associated with **account <https://www.facebook.com/geoff.stow.96>** (deactivated Dec 9, 2025) is scheduled for **permanent deletion on or about June 7, 2026**.
2. **Irreparable Injury:** If the Commission waits for its standard 30-day evaluation window, the subject matter of this complaint—specifically the **algorithmic logs and Meta AI logic** required to prove the violation—will be irrevocably destroyed.
3. **Willful Evasion of Service:** As documented in **Annexes B-E** of my filing, the Respondent has willfully evaded **nine (9) physical delivery attempts**. This evasion is clearly intended to stall proceedings until the 180-day deletion clock expires.
4. **Legal Basis:** Under the **NPC Rules of Procedure**, the Commission has the power to issue interim measures to preserve the subject matter of a complaint.

I respectfully pray that the Commission:

- Immediately issue an **Interim Order to Preserve Evidence** to Meta Platforms;
- Assign an **Emergency Reference Number** to this case today;
- Issue the **Service Request and Assessment Form (SRAF)** for immediate payment of filing fees.

Failure to act before the June 7th deletion date will render any subsequent investigation moot and constitute a failure of regulatory protection.

Sincerely,

*Geoff Stow*

**Founder (1989)**

**Redberry Software**

London, Hong Kong, Dubai and Philippines.
