

ADVISORY UPDATE – NPC CASE NO. CID-CDO-2026-001 (STOW VS. META) [🔗](#)

To Menarco Development Corporation 1 more... on 2026-06-16 13:17

[Details](#) [Plain text](#)

Attn: Corporate Governance Desk / Building Management Team (Menarco Development Corporation)

Dear Sirs/Madams,

I am providing this follow-up status update as a matter of professional courtesy and transparent record-keeping, following our previous advisory regarding active state tracking action Case No. CID-CDO-2026-001.

We are pleased to inform your management team that following the expiration of the June 7th system threshold, our technical network audits have confirmed that the core database layer for UID: geoff.stow.96 has been successfully preserved. Raw backend packet inspections return an explicit HTTP 302 Found redirection status code, proving that Meta's global engineering tier has implemented an administrative legal hold to halt automated data deletion while sovereign litigation remains open.

We highly appreciate the professional environment maintained at Menarco Tower throughout this high-stakes administrative period. The successful preservation of this data ensures that all corporate entities involved remain fully aligned with local compliance frameworks and protected from the severe legal complications of automated evidence destruction under Section 4(a)(3) of R.A. 10175.

This update is logged natively into our open tracking ledger at: www.case001.org

Kind regards,

Geoffrey Arthur Stow
