*Complainant,*

**- versus - Ref. No.:** *(En Banc / CDO Track)*

**META PLATFORMS INTERNATIONAL  
OPERATIONS PHILIPPINES INC.,**  
*Respondent.*

X-----X

**SUPPLEMENTAL MANIFESTATION: GLOBAL CONTEXT OF  
RESPONDENT'S AUTOMATED DECISION-MAKING (ADM)  
FAILURES**

**COMES NOW**, the Complainant, **GEOFFREY ARTHUR STOW**, and respectfully submits this Supplemental Manifestation in PDF format as requested by the Complaints and Investigation Division on May 13, 2026, for formal endorsement to the assigned Investigating Officer:

1. **ADMISSION OF GLOBAL LOGS:** The Complainant formally submits into the record the global "**People Over Platforms**" infrastructure audit log, currently backed by over **64,000 verified data subjects** (<https://www.change.org/p/hold-meta-accountable-for-wrongful-account-disabling-continue-at-people-over-platforms>).
2. **PROOF OF SYSTEMIC FALSE POSITIVES:** This international record provides peer-level evidence establishing that the "Sexualisation" flag triggered by Meta AI against the Complainant's account is a documented, recurring algorithmic error observed globally (including verified cases in Australia, Canada, the USA, and the Philippines).
3. **VIOLATION OF NPC ADVISORY NO. 2024-04:** This global data demonstrates a widespread pattern where the Respondent systematically deprives data subjects of the **meaningful human intervention** mandated under Philippine regulatory standards, letting a flawed automated script execute permanent data destruction without human oversight.
4. **URGENCY OF THE EN BANC CDO:** This systemic failure reinforces the imminent danger to the data. With Meta AI's automated deletion clock ticking toward early June 2026, an immediate **En Banc Cease and Desist Order (CDO)** is necessary to freeze the server logs before the evidence is permanently purged.

**RESPECTFULLY SUBMITTED.**

May 13, 2026. Olongapo City for Pasay City, Philippines.

**GEOFFREY ARTHUR STOW**  
Complainant / Infrastructure Administrator

## PROPOSAL FOR OPERATIONAL COOPERATION: Service Integrity Protocol – Case Reference: NPC No. CID-CDO-2026-001

To Menarco Development Corporation 1 more... on 2026-05-23 15:19

Details Plain text

Attn: Office of Corporate Governance / Legal Operations  
Menarco Development Corporation

Dear Sirs/Madams,

We write to update your administrative logs regarding the active data-privacy monitoring platform, currently live on the public network at [www.case001.org](http://www.case001.org). As documented on the public registry, this matter has been formally docketed by the sovereign data regulator as the premier emergency data preservation track of the year (Case No. CID-CDO-2026-001).

As an international software infrastructure firm with a 37-year commercial legacy, we highly respect Menarco's position as a premium commercial lessor. We presume that the disclosed board composition of this real estate development house includes prominent figures tied directly to the leadership of major national media and broadcasting networks.

Consequently, we identify a mutual operational interest in preserving standard compliance and service integrity within your BGC Menarco Tower facility.

### The Two-Stage Operational Proposal:

To eliminate any ongoing reputational risk or administrative friction before the state's highest data privacy tribunal regarding the multi-carrier courier blockades documented at your reception lobby (Ref: Annex I), **we hereby formally invite Menarco Management to execute internal service as a neutral corporate lessor.**

- The Condition:** If your legal or building operations department confirms its willingness to maintain standard building transparency, we will provide your desk with an encrypted, sanitized copy of the data preservation mandate.
- The Execution:** Upon receipt of this secure packet, a Menarco building supervisor will execute internal routing by delivering the document directly to the office management of your 32nd-floor multinational tenant, securing a standard internal building acknowledgment receipt, copies of which you will make immediately available to the Complainant, Geoffrey Arthur Stow, via email address [geoff.stow@redberry.com](mailto:geoff.stow@redberry.com).

This professional intervention completely exonerates your ground-floor infrastructure from any ongoing narrative of tenant-evasion support, honors your public commitment to corporate governance, and provides a clean operational resolution to this matter.

We hold our public timeline documentation for a strict **72-hour review window** to allow your legal department sufficient time to ponder this structural exit prior to our upcoming international media updates. We await your operational confirmation before any file parameters are transmitted.

Sincerely,

**Corporate Risk & Compliance Desk**

Redberry Software (UK) Ltd.

# Annex L Page 1 of 1 Urgency of Data Preservation Ignored to Date

## SUPPLEMENTAL RECORD: Documentation of Procedural Delay Ahead of June 7 Deletion – Case No. CID-CDO-2026-001

To En Banc NPC on 2026-05-14 15:02

From [geoff.stow@redberry.com](mailto:geoff.stow@redberry.com)  
To En Banc NPC  
Cc Complaints NPC, Legal Division NPC  
Date 2026-05-14 15:02

[Details](#) [Plain text](#)

Dear Honorable Commissioners,

For the permanent record of **Case No. CID-CDO-2026-001**, I am formally submitting the text of an official SMS transmission received from the Complaints Division at 10:25 AM today:

*"Greetings from the National Privacy Commission! We already sent an email indicating that the CID will first issue a fact finding report before forwarding the CDO to the En Banc. In view of this we will no longer be making a call. Thank you."*

As a software infrastructure expert, I submit to the *En Banc* that this insistence on a standard "Fact-Finding Report" constitutes a severe procedural failure in an emergency track:

- Administrative Inaction:** The CID is treating an **Urgent Motion for an Ex-Parte CDO**—for which all application fees and the **PHP 1,500.00 CDO Bond** have been paid and accepted—as a routine, slow-moving inquiry.
- Irreparable Technical Injury:** By refusing to immediately elevate this file to the *En Banc*, the CID is allowing Meta AI's automated deletion script to outrun the regulator's internal reporting timeline.

If the data is permanently purged on June 7, 2026, while the CID is still compiling its report, it will result in a total denial of due process and the absolute destruction of evidence under active review.

I respectfully pray that the *En Banc* exercise its extraordinary oversight powers, bypass this reporting delay, and issue an immediate **Interim Order to Preserve Evidence** to Meta Platforms at their verified Menarco Tower address.

Sincerely,

**Geoffrey Arthur Stow**

Complainant / Infrastructure Administrator
